

[Full Name]

[PhD Student, Department / School, University]

[City, State/Country]

[Email] — [Website] — [Google Scholar] — [LinkedIn]

Research Interests

Operations Management; Information Systems; AI and Service Operations; [specific research interest];
[specific research interest]

Education

[University]

[Expected YYYY]

[PhD in field, Department / School]

[City, State/Country]

- Advisor(s): [Advisor Name(s)]
- Dissertation: [Dissertation title or working title]

[University]

[YYYY]

[Previous degree]

[City, State/Country]

- [Thesis, honors, or specialization if relevant]

Research

[Project Title]

[Status]

Coauthors: [Coauthor Name(s)]

[Target / Current Venue]

- [One-sentence contribution and research question]
- Methods/data: [methods, data, model, or setting]

[Project Title]

[Status]

Coauthors: [Coauthor Name(s)]

[Target / Current Venue]

- [One-sentence contribution and research question]
- Methods/data: [methods, data, model, or setting]

Publications and Working Papers

Published / Accepted

[1] [Author list]. [Year]. “[Article title].” [Journal / Conference], [volume, issue, pages]. [DOI / URL]

Working Papers

[1] [Author list]. “[Working paper title].” [Status / target venue].

Work in Progress

[1] [Author list]. “[Project title].” [Current stage].

Teaching

[Course Title]

[Term YYYY]

[Instructor of Record / Co-Instructor / Teaching Assistant]

[University]

- Level: [Undergraduate / MBA / MS / PhD]; enrollment: [N]
- [Responsibilities, teaching evaluation summary, or teaching innovation]

Teaching Interests

[Operations management course]; [information systems course]; [analytics / AI course]; [service operations course]

Service

[Journal / Conference]

[YYYY]

[Reviewer / Discussant / Session Chair]

[Professional Service]

[Department / School]

[YYYY]

[Committee / Organizer / Student Representative]

[Departmental Service]

Awards, Fellowships, and Grants

[Award / Fellowship / Grant]

[YYYY]

[Awarding organization]

[Amount if public]

[One-line description, if useful.]

Research Skills

Methods: [empirical method]; [analytical / modeling method]; [causal inference / econometrics / optimization / simulation]

Tools: [programming language]; [statistical software]; [database or cloud tool]

Languages: [language and proficiency]
